

Add the ucount4eu bug to your signature in Microsoft Outlook

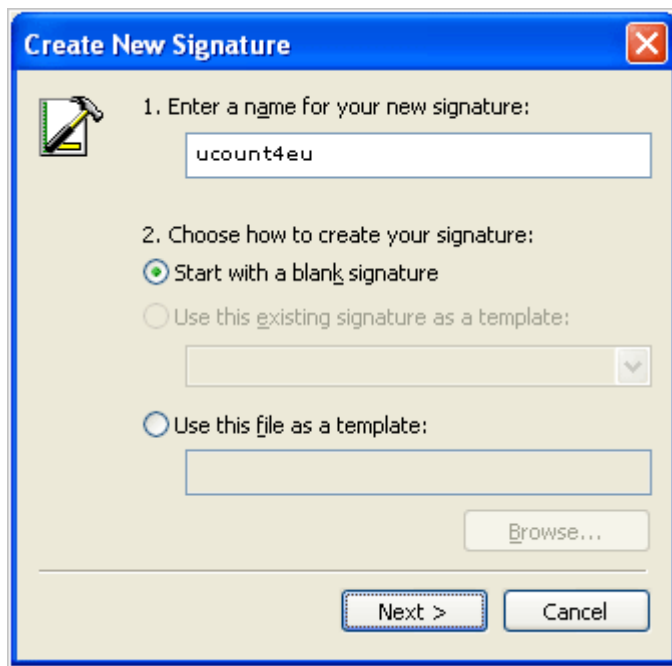

1. Select **Tools** > **Options** from the main menu.

2. Select the **Mail Format** tab from the Options window.
3. Click the **Signatures** button under *Signatures*.

4. Click **New**.
5. Name your signature.
6. Select **Start with a blank signature**.
7. Click **Next**.

8. Enter your signature text in the open field.
9. Highlight a word or phase and click the **Font** button to change the text appearance.

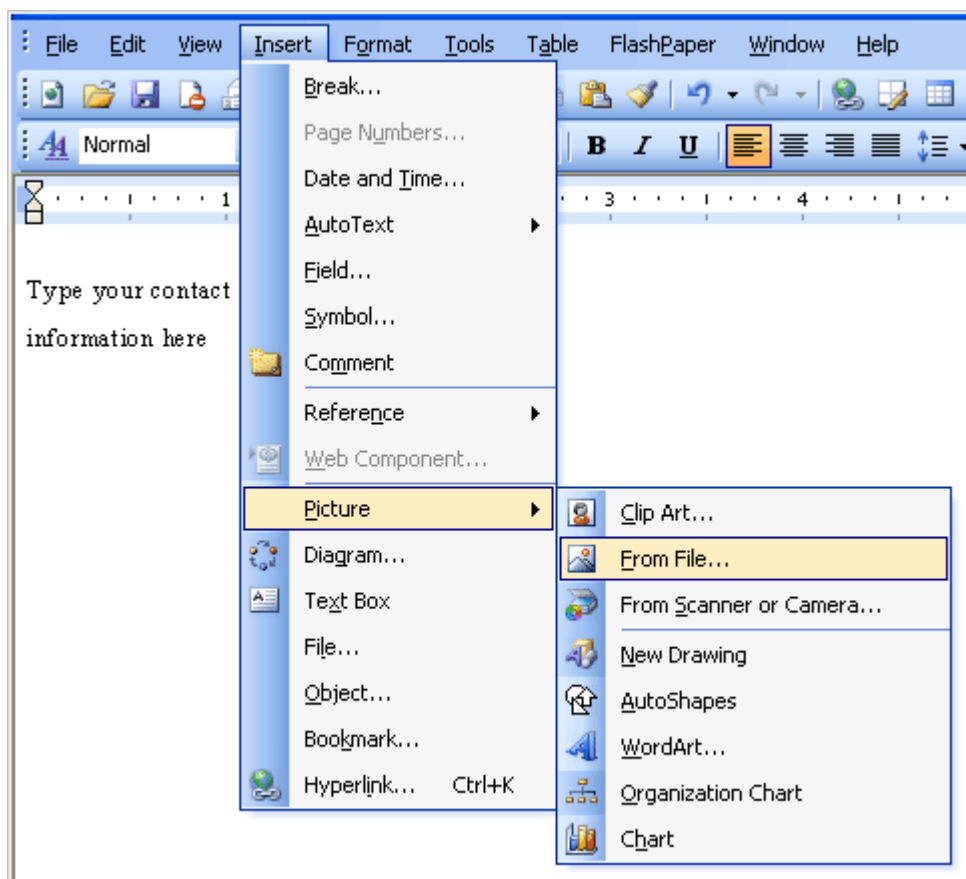

10. Click **Advanced Edit**.

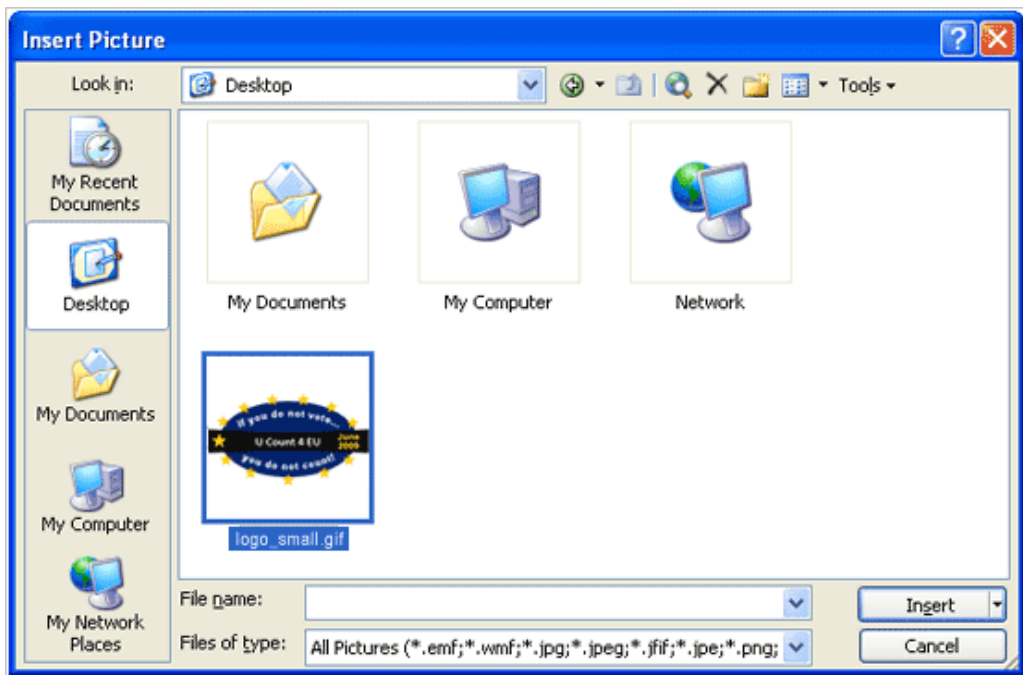

11. Click **Yes** to the dialogue about leaving Outlook.

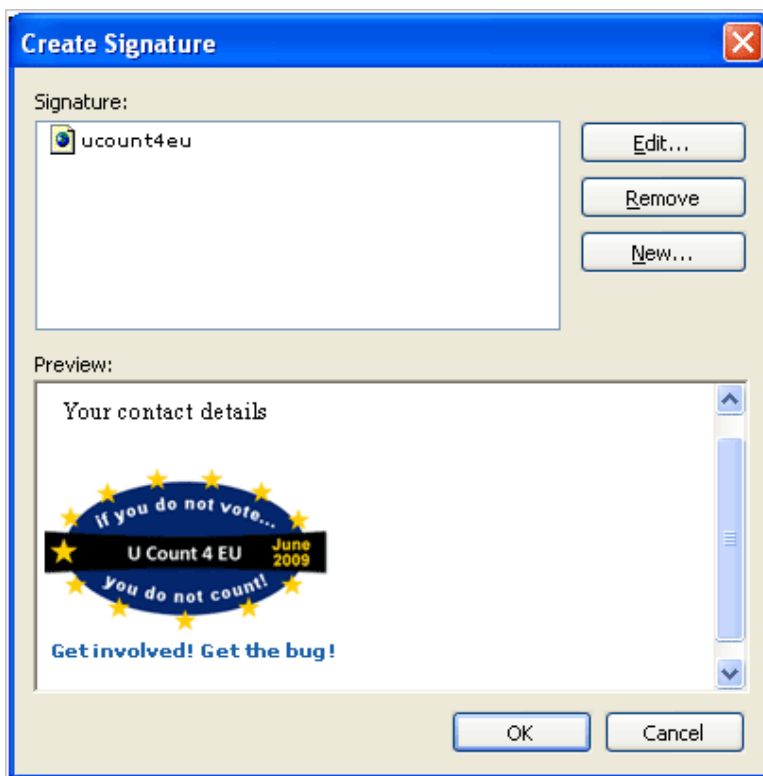

12. Select **Insert > Picture > From File** from the main menu (Word or FrontPage).

13. Browse your computer to locate the logo file, select it and click **Insert**.

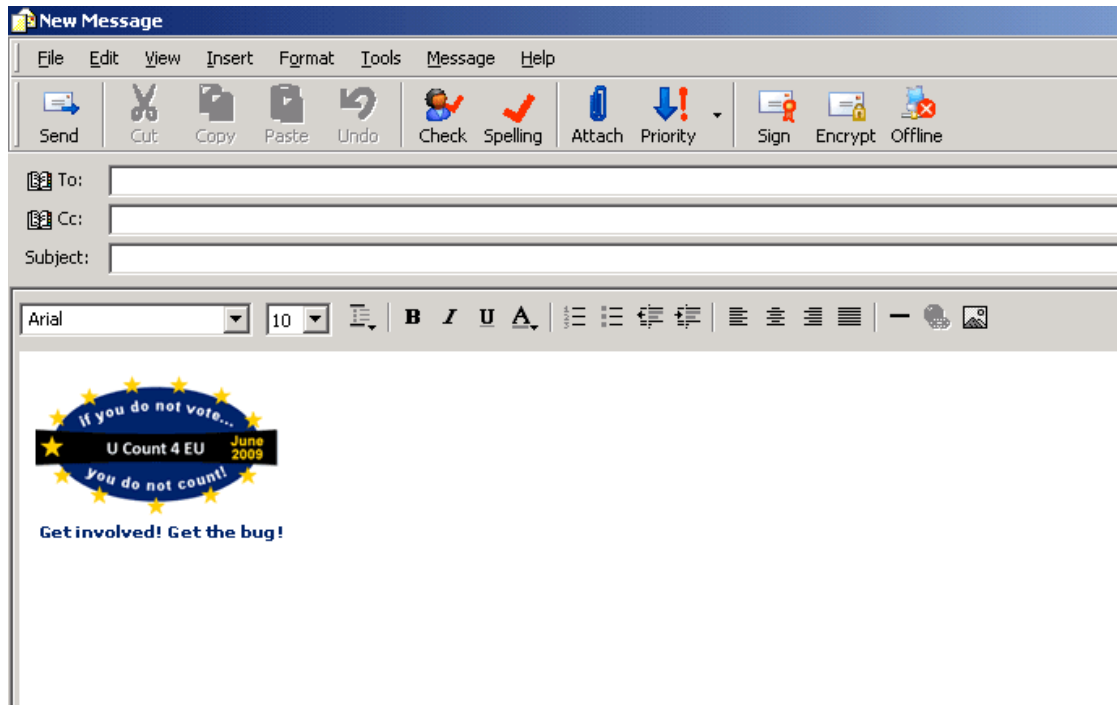

14. Add the phrase "Get involved! Get the bug!" below the logo.
15. Select the above phrase and logo and click **Insert > Hyperlink** to create a new hyperlink, pointing at: <http://www.ucount4eu.eu>.
16. Close the advanced editor (Microsoft Word in most cases), making sure that you click **Yes** to save your changes.

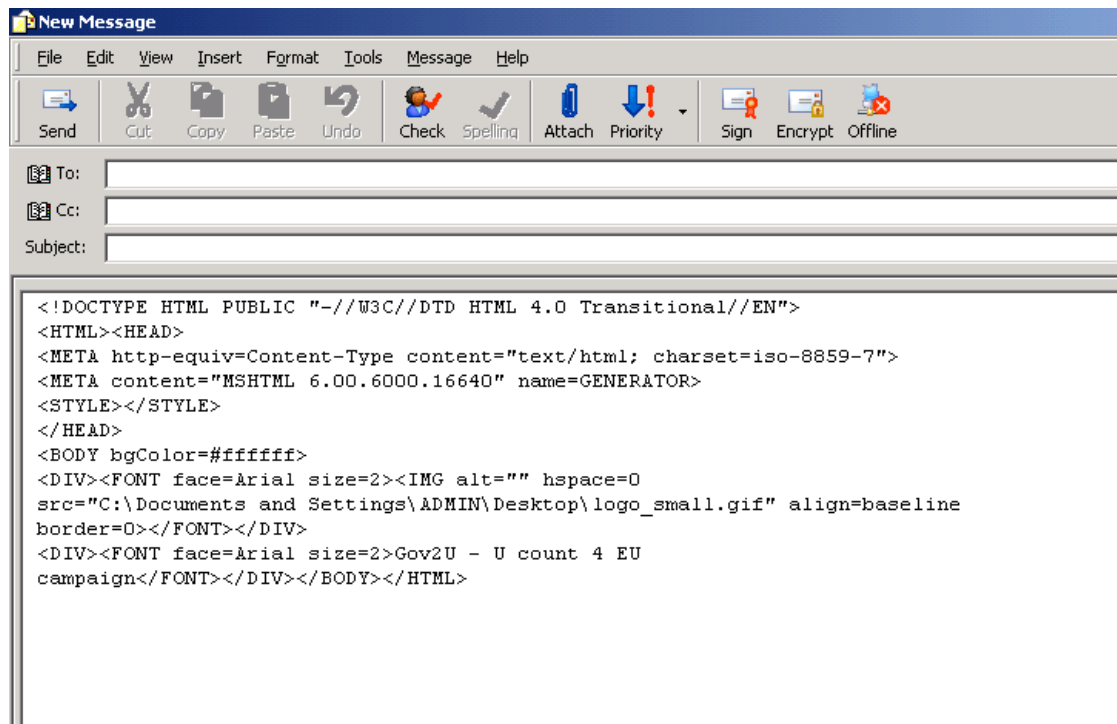

17. When you finish editing the new signature, click **OK** to close all remaining windows.

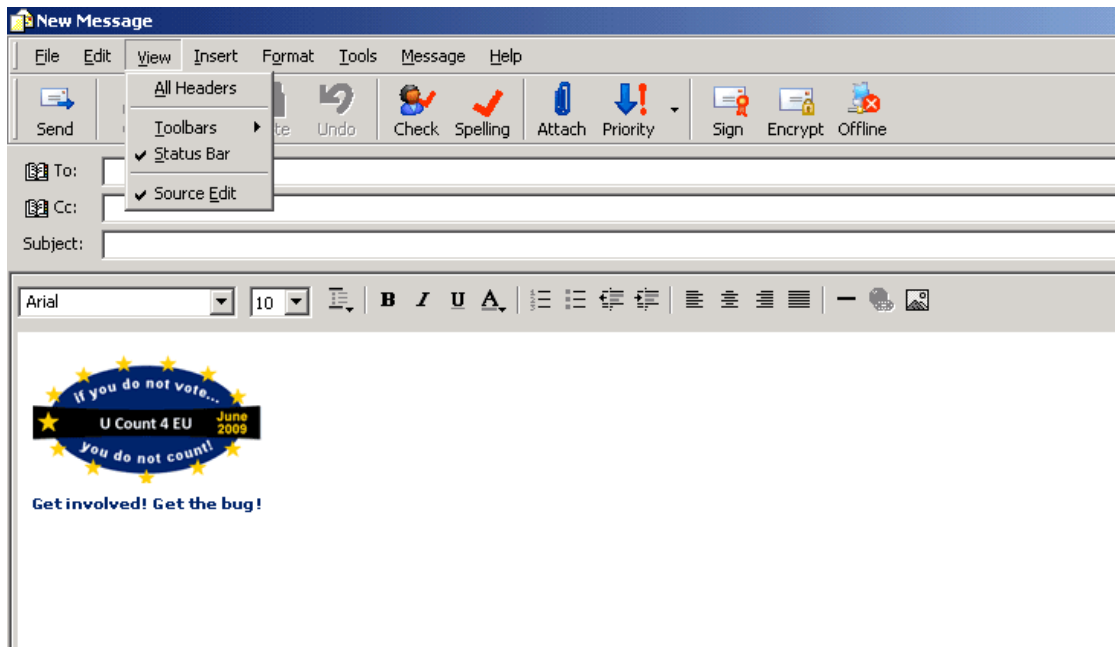

Add the ucount4eu bug to your signature in Outlook Express

1. Start with an empty message using **rich HTML formatting** in Windows Mail, Windows Live Mail or Outlook Express.
2. Design your signature using the formatting tools.
3. Add the phrase "Get involved! Get the bug!" below the logo.

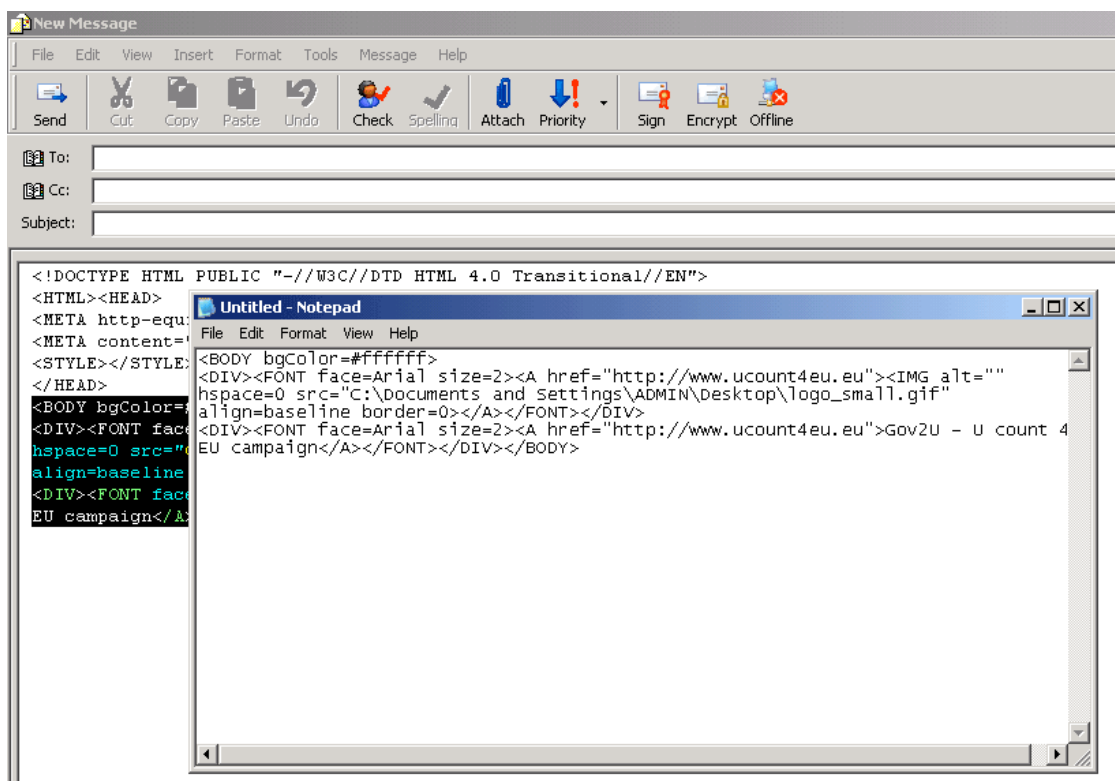

4. Select the above phrase and logo and click **Insert > Hyperlink** to create a new hyperlink, pointing at: <http://www.ucount4eu.eu>.
5. Go to the Source tab. If you can't see the Source tab, click **View > Source Edit** and then the Source tab will be visible at the bottom.

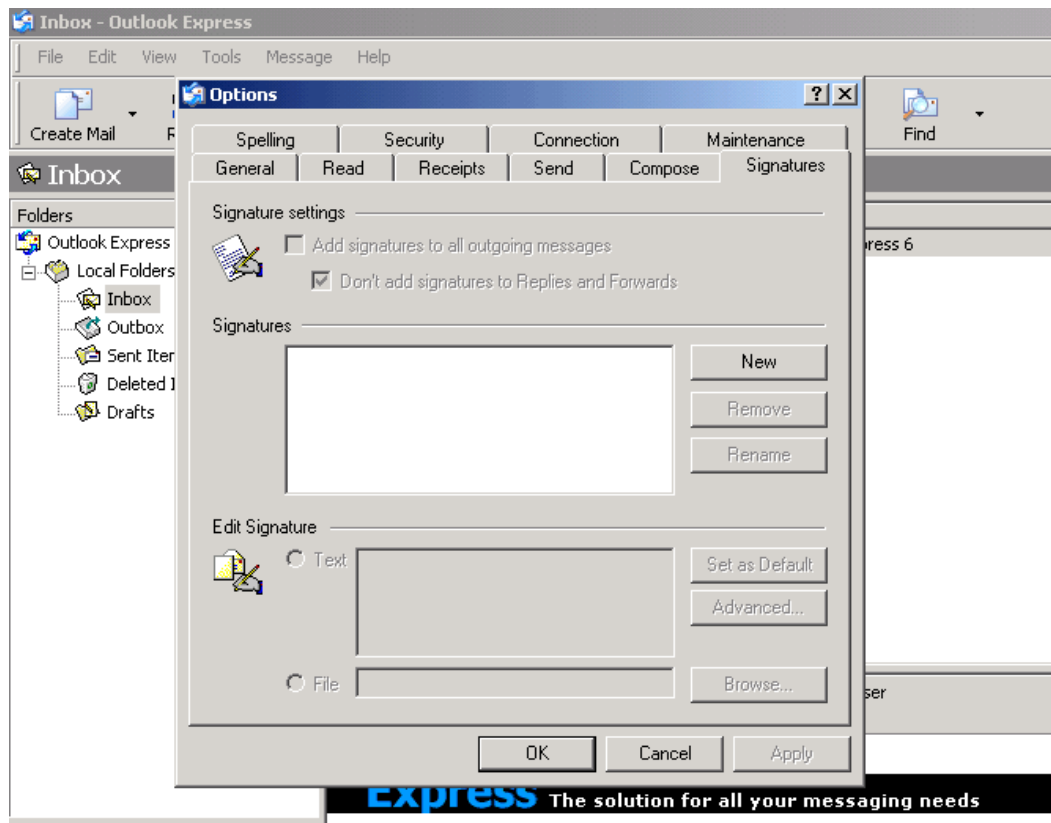

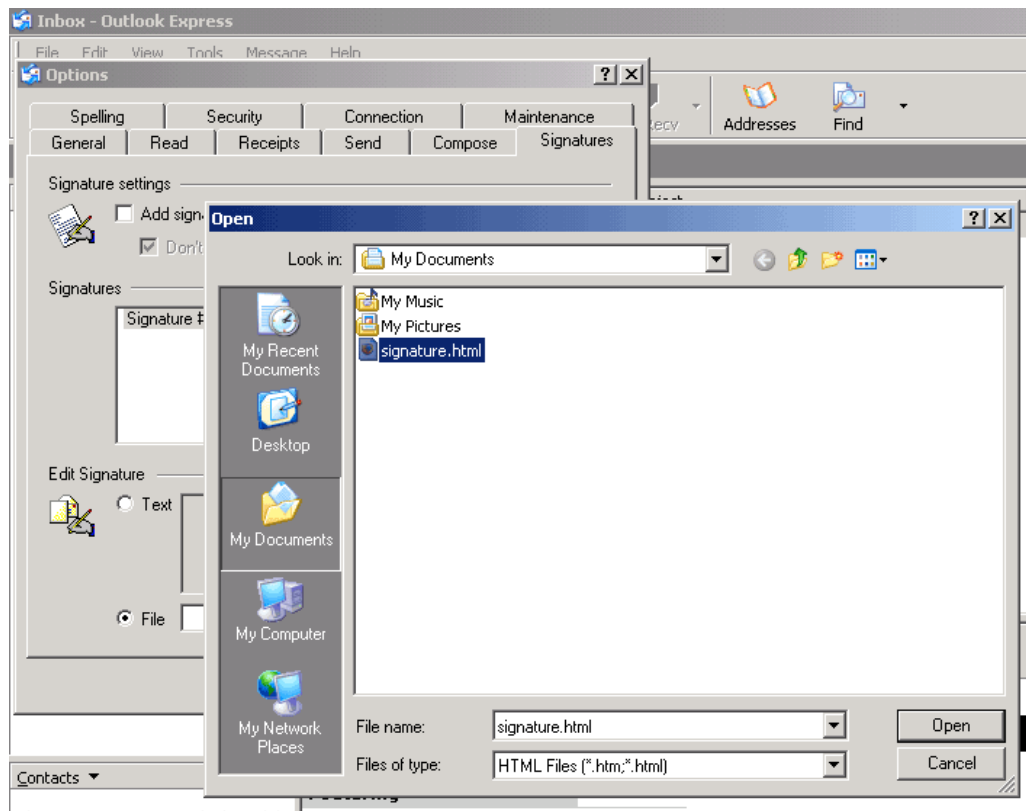

6. Highlight the code between **<BODY>** and **</BODY>**.
7. Select **Edit > Copy** from the menu.
8. Open Notepad.
9. Select **Edit > Paste** from the menu.
10. Use **File > Save** to save the signature to a file called "signature.html" in your My Documents folder.

11. Select **Tools > Options** from the menu.
12. Go to the **Signatures** tab.

13. Click **New**.
14. Make sure **File** is selected under **Edit Signature**.
15. Use the **Browse** button to open the "signature.html" file just created.

16. Click **OK**.
17. Test your new signature.
